

PRYSMATIC OFFSHORE CABLES

Tender Submission To: Seaway7 Supply Chain Management **Ref:** ITT-MER-SCM-2101 — 66kV Subsea Array Cable **Date:** July 29, 2026

1.0 Introduction & Instructions to Tenderers Prysmatic Offshore Cables submits this binding offer for the Meridian Offshore Wind Farm project in accordance with ITT-MER-SCM-2101.

2.0 Technical Scope of Supply Fully Compliant with TS-CBL-66KV-001. Prysmatic will utilize a premium Copper (Cu) conductor design, ensuring superior conductivity and efficiency. Due to the copper core, the weight in air will be approximately 50 kg/m. We confirm the 48-core SM integrated fibre optic and XLPE insulation.

3.0 Quality Assurance & HSEQ Requirements ⚠️ *DEVIATION NOTED* Prysmatic complies with all DNV and ISO 9001:2015 standards. However, regarding QA-MAN-2026-EPCI Section 4 (FAT & Traceability), Prysmatic operates on a strict global manufacturing queue. We require a **45-day notice period** for the Inspection and Test Plan (ITP) prior to manufacturing, rather than the requested 30 days.

4.0 Commercial & Maritime Legal Terms Fully Compliant. We accept the Knock-for-Knock liability flow-down, the DDP Rotterdam delivery basis, and the required 24/36 month warranty period per S7-SCM-TC-2026-v1.0.

5.0 Pricing Schedule & Returnables All prices exclude VAT and are quoted DDP to Rotterdam.
