

3000T HEAVY LIFT CRANE HOOK BLOCK

Overview: Main hoist hook block designed for DP3 Heavy Lift Crane Vessels utilized in offshore foundation and topside installations.

Technical Parameters

Safe Working Load (SWL)	3,000 Metric Tonnes
Test Load	3,300 Metric Tonnes (1.1 x SWL)
Hook Type	Ramshorn forged hook (DIN 15402)
Sheave Diameter	2,200 mm
Number of Sheaves	12 to 16
Wire Rope Diameter	60 mm - 76 mm
Block Weight	Approx. 95 Metric Tonnes
Material Certification	EN 10204 Type 3.2 (DNV/Lloyd's)
Operating Temperature Range	-20°C to +45°C
Design Standard	DNV-OS-H101 / API Spec 2C
